EDUCATION & TRAINING

Visiting Scholar in Experimental Surgery — 2026 — Present
University of São Paulo, School of Medicine (LIM26) — *São Paulo, Brazil*
- *P.I.s*: Analía Arévalo & Guilherme Lepski

Postdoctoral Fellow in Neurology — 2020 — Present
NYU Grossman School of Medicine — *New York, NY*
- *P.I.*: Adeen Flinker

Ph.D. in Experimental Psychology — 2013 — 2019
UC San Diego — *San Diego, CA*
- *P.I.:* Victor S. Ferreira
- *Dissertation:* The Mental Representation of Syntax: Interfaces with Production, Comprehension, and Learning

M.A. in Linguistics — 2011 — 2013
UC Santa Cruz — *Santa Cruz, CA*
- *P.I.:* Matthew Wagers
- *Thesis:* Bridging the Gap between Acceptability and Production of English Resumptive Pronouns

Lab Manager, Language Sciences Lab — 2010 — 2011
Harvard University — *Cambridge, MA*
- *P.I.:* Maria Polinsky

Research Assistant, Speech and Language Perception Lab — 2009 — 2010
Emory University — *Atlanta, GA*
- *P.I.:* Lynne Nygaard

B.A. in Physics and Music, *Magna Cum Laude* — 2004 — 2008
Middlebury College — *Middlebury, VT*
- *Advisor:* Jeff Dunham
- *Thesis:* Geometric Algebra in Relativistic and Non-Relativistic Physics

AWARDS & HONORS

Gibson/Fedorenko Young Scholar Award — 2026
Awarded for "outstanding scientific work," presented at the 38th Annual Conference of the Society for Human Sentence Processing (HSP 2025). Watch those talks: one on ***language production in the brain*** and one on ***Nungon***.

UC San Diego David Swinney Award — 2013

Adam M. Morgan

FUNDING

NIH R21 (Submission pending council review): *Toward Biomarkers of Syntactic Impairment in Aphasia* — *Submitted June 2026; scored 11th percentile*

Impact score: 24 (11th percentile of reviewed applications); final funding decision expected January 2027.

The NIDCD ECR R21 provides 3 years of transitional funding, intended for early career researchers to obtain preliminary data for a subsequent R01.

FAPESP Visiting Scholar: *Exploring Syntax with Electrocorticography: Experimental Designs to understand Language Processing* — 2026 — 2027

FAPESP Award No. 2025/13382-6

One year of funding to help develop an ECoG program at the University of São Paulo (Brazil) School of Medicine, Hospital das Clínicas

NIH NRSA F32: *Syntactic Control of Lexical Activation during Speech* — 2022 — 2025

NIDCD Award No. F32DC019533

Three years of funding for postdoctoral research at NYU

NSF Graduate Research Fellowship (GRFP) — 2012 — 2017

Three years of full funding for graduate studies and research

UC San Diego Collaboratories Fellowship — 2015 — 2016

$30,000 toward a ECoG collaboration across the UCSD Departments of Psychology, Linguistics, and Radiology

Museu Parense Emílio Goeldi - Indigenous Brazilian Languages Grant — 2012

Funding for a summer in the Brazilian Amazon documenting *Tupari*, an indigenous Tupian language spoken by ~300 people in Rondônia

Adam M. Morgan

PUBLICATIONS *(*co-first author)*

Morgan AM, Devinsky O, Doyle W, Dugan P, Friedman D, & Flinker A (*in prep*).
The cortical dynamics of higher-order language: An intracranial comparison of sentence production and comprehension.

Improta França A, Soto M, Souza G, Novo Gomes J, Camargo P, Nunes M, **Morgan AM**, Lepski G, Arévalo A (*in prep*).
Introducing a Semantic Odd Word Out task for Brazilian Portuguese.

Morgan AM, Yu J, Ögate L, Dono I, & Sarvasy H (*in prep*).
Advance planning and predictive processing induced by Nungon switch-reference marking: Evidence from eyetracking during production and comprehension.

Morgan AM (*submitted; preprint available upon request*).
To understand higher-order language, look beyond comprehension to production.

Improta França A, Soto M, Souza G, Novo Gomes J, Camargo P, Nunes M, **Morgan AM**, Lepski G, Arévalo A (*submitted*).
Validação de um teste de Odd Word Out sintático-semântico para o Português Brasileiro.

Morgan AM, Dono I, Ögate L, Girip S, & Sarvasy H (under revision for *Cognition*; available on PsyArXiv).
Attraction effects in Nungon reveal independent mechanisms for agreement and switch-reference marking.

DIVERSITY, EQUITY, INCLUSION

Clear Direction Mentoring (CDM) 2022—*present*

Board Member (2025—present)
Senior Advisor (2024—25)
Vice President (2023—24)
Mentor (2022—25)

CDM is a nonprofit that aims to diversify STEMM by addressing leaky pipeline issues. We pair high schoolers from underrepresented backgrounds with mentors who are career scientists. As mentors, we help our fellows apply for college, financial aid, and internships, and support them as they navigate family, financial, institutional, and societal obstacles to a STEMM career. I have mentored two fellows in my time with CDM, both of whom are now the first in their families to attend college and whom I am immensely proud of. I have additionally served in various leadership roles with CDM since 2023.

UC San Diego Equity, Diversity, and Inclusion Advisory Council 2014—2019

Psychology Department Representative

On this subcommittee of the UCSD Graduate Student Association, I organized workshops on diversity and implicit bias, led a diversity flyering campaign, and worked on policy to advocate for undocumented students, student workers, and to address bias, underrepresentation, and inequity on the UCSD campus.

Adam M. Morgan

TEACHING

As Instructor

2018 UCSD PSYC 164: Cognitive Development

As Guest Lecturer

2026 University of São Paulo — Neurosciences Specialization Course
Eletroencefalografia intracraniana (iEEG): Eletrocorticografia (ECoG) e estereo-EEG (sEEG)

As Teaching Assistant

2019 UCSD PSYC 134: Eating Disorders

2018 UCSD PSYC 169: Criminology
UCSD PSYC 153: Psychology of Emotion

2017 UCSD PSYC 4: Behavioral Psychology

2016 UCSD PSYC 134: Eating Disorders

2015 UCSD PSYC 101: Developmental Psychology
UCSD PSYC 105: Cognitive Psychology

2013 UCSD PSYC 103: Mechanisms of Animal Behavior
UCSC LING 101: Syntactic Structures

Adam M. Morgan

TALKS

2026	**São Paulo Excellence Chair (SPEC)**. Syntactic processing: Behavioral measures from Nungon (Papua New Guinea) and Neural measures from English speaking epilepsy patients.	*São Paulo, Brazil*
2026	**Society for the Neurobiology of Language (SNL)**. Cross-modal decoding of syntactic frames from word comprehension to sentence production.	*Geneva, Switzerland*
2025	**Human Sentence Processing (HSP)**, University of Maryland. From single words to sentence production: Shared cortical representations but distinct temporal dynamics. 📽️	*College Park, MD*
	Human Sentence Processing (HSP), University of Maryland. Processing switch reference marking in Nungon (Papua New Guinea): Comprehension and production measures. 📽️	*College Park, MD*
2024	**Society for Neuroscience (SfN)**, Neural Mechanisms of Language Production and Comprehension (Nanosymposium). Low-activity coding of syntax during language production.	*Chicago, IL*
	Intracranial EEG Seminar Series, NYU School of Medicine. The neural dynamics of sentence production: ECoG reveals sentence-specific networks and temporal patterns.	*New York, NY*
2023	**Society for Neuroscience (SfN),** Neural Circuits and Mechanisms of Language and Cognition (Nanosymposium). The neural dynamics of sentence production – ECoG reveals sentence-specific networks and temporal patterns.	*Washington DC*
2021	**Society for the Neurobiology of Language (SNL)**. Visualizing lexical activation during speech production.	*Virtual*

LINGUISTIC FIELDWORK

Tupari (Tupi), 2012 — *Rondônia, Brazil*

Preliminary documentation of Tupari in an indigenous reserve. Work with Dr. Denny Moore of Museu Paraense Emílio Goeldi, with grant funding from the Museu Goeldi.

Ch'ol (Mayan), 2011 — *Chiapas, Mexico*

Ran a language processing experiment with speakers of an ergative, VSO language. Work with the Harvard University Polinsky Language Sciences Lab.

Q'anjob'al (Mayan), 2011 — *Santa Eulalia, Guatemala*

Ran a language processing experiment with speakers of an ergative, VOS language. Work with the Harvard University Polinsky Language Sciences Lab.
