

Adam M. Morgan

adam.morgan@nyulangone.org | he/him | <https://adam-milton-morgan.github.io>

EDUCATION & TRAINING

Visiting Scholar in Experimental Surgery

University of São Paulo, School of Medicine (LIM26)

- *P.I.s:* Analía Arévalo & Guilherme Lepski

2026 — Present

São Paulo, Brazil

Postdoctoral Fellow in Neurology

NYU Grossman School of Medicine

- *P.I.:* Adeen Flinker

2020 — Present

New York, NY

Ph.D. in Experimental Psychology

UC San Diego

- *P.I.:* Victor S. Ferreira
- *Dissertation:* The Mental Representation of Syntax: Interfaces with Production, Comprehension, and Learning

2013 — 2019

San Diego, CA

M.A. in Linguistics

UC Santa Cruz

- *P.I.:* Matthew Wagers
- *Thesis:* Bridging the Gap between Acceptability and Production of English Resumptive Pronouns

2011 — 2013

Santa Cruz, CA

Lab Manager, Language Sciences Lab

Harvard University

- *P.I.:* Maria Polinsky

2010 — 2011

Cambridge, MA

Research Assistant, Speech and Language Perception Lab

Emory University

- *P.I.:* Lynne Nygaard

2009 — 2010

Atlanta, GA

B.A. in Physics and Music, *Magna Cum Laude*

Middlebury College

- *Advisor:* Jeff Dunham
- *Thesis:* Geometric Algebra in Relativistic and Non-Relativistic Physics

2004 — 2008

Middlebury, VT

AWARDS & HONORS

Gibson/Fedorenko Young Scholar Award

Awarded for “outstanding scientific work,” presented at the 38th Annual Conference of the Society for Human Sentence Processing (HSP 2025). Watch those talks: one on [language production in the brain](#) and one on [Nungon](#).

2026

UC San Diego David Swinney Award

2013

Adam M. Morgan

FUNDING

NIH R21 (Resubmission pending review): <i>Toward Biomarkers of Syntactic Impairment in Aphasia</i> NIDCD Early Career Research (ECR): Three years of transitional funding, intended for PI Morgan to obtain preliminary data for a subsequent R01. First submission received an impact score of 39 (top 15% of applications).	<i>Submitted June 2026</i>
FAPESP Visiting Scholar: <i>Exploring Syntax with Electrocoricography: Experimental Designs to understand Language Processing</i> FAPESP Award No. 2025/13382-6 One year of full funding to help develop an ECoG program at the University of São Paulo (Brazil) School of Medicine, Hospital das Clínicas	2026 — 2027
NIH NRSA F32: <i>Syntactic Control of Lexical Activation during Speech</i> NIDCD Award No. F32DC019533 Three years of full funding for postdoctoral research at NYU	2022 — 2025
NSF Graduate Research Fellowship (GRFP) Three years of full funding for graduate studies and research	2012 — 2017
UC San Diego Collaboratories Fellowship \$30,000 toward a ECoG collaboration across the UCSD Departments of Psychology, Linguistics, and Radiology	2015 — 2016
Museu Pareense Emílio Goeldi - Indigenous Brazilian Languages Grant Funding for a summer in the Brazilian Amazon documenting <i>Tupari</i> , an indigenous Tupian language spoken by ~300 people in Rondônia	2012

Adam M. Morgan

PUBLICATIONS (*co-first author)

Morgan AM, Devinsky O, Doyle W, Dugan P, Friedman D, & Flinker A (*In Preparation*).

The cortical dynamics of higher-order language: An intracranial comparison of sentence production and comprehension.

Morgan AM, Yu J, Ögate L, Dono I, & Sarvasy H (*In Preparation*).

Advance planning and predictive processing induced by Nungon switch-reference marking: Evidence from eyetracking during production and comprehension.

Morgan AM (*Submitted; Preprint available upon request*).

To understand higher-order language, look beyond comprehension to production.

Morgan AM, Dono I, Ögate L, Girip S, & Sarvasy H (*Under Revision for Cognition; available on PsyArXiv*).

Attraction effects in Nungon reveal independent mechanisms for agreement and switch-reference marking.

Adam M. Morgan

DIVERSITY, EQUITY, INCLUSION

Clear Direction Mentoring (CDM)

2022—present

Board Member (2025—present)

Senior Advisor (2024—25)

Vice President (2023—24)

Mentor (2022—25)

CDM is a nonprofit that aims to diversify STEMM by addressing leaky pipeline issues. We pair high schoolers from underrepresented backgrounds with mentors who are career scientists. As mentors, we help our fellows apply for college, financial aid, and internships, and support them as they navigate family, financial, institutional, and societal obstacles to a STEMM career. I have mentored two fellows in my time with CDM, both of whom are now the first in their families to attend college and whom I am immensely proud of. I have additionally served in various leadership roles with CDM since 2023.

UC San Diego Equity, Diversity, and Inclusion Advisory Council

2014—2019

Psychology Department Representative

On this subcommittee of the UCSD Graduate Student Association, I organized workshops on diversity and implicit bias, led a diversity [flyering campaign](#), and worked on policy to advocate for undocumented students, student workers, and to address bias, underrepresentation, and inequity on the UCSD campus.

Adam M. Morgan

TEACHING

As Instructor

2018 UCSD PSYC 164: Cognitive Development

As Guest Lecturer

2026 University of São Paulo — Neurosciences Specialization Course

Eletroencefalografia intracraniana (iEEG): Eletrocorticografia (ECoG) e estereo-EEG (sEEG)

As Teaching Assistant

2019 UCSD PSYC 134: Eating Disorders

2018 UCSD PSYC 169: Criminology
UCSD PSYC 153: Psychology of Emotion

2017 UCSD PSYC 4: Behavioral Psychology

2016 UCSD PSYC 134: Eating Disorders

2015 UCSD PSYC 101: Developmental Psychology
UCSD PSYC 105: Cognitive Psychology

2013 UCSD PSYC 103: Mechanisms of Animal Behavior
UCSC LING 101: Syntactic Structures

Adam M. Morgan

TALKS

- | | | |
|------|---|---------------------|
| 2026 | São Paulo Excellence Chair (SPEC). Syntactic processing: Behavioral measures from Nungon (Papua New Guinea) and Neural measures from English speaking epilepsy patients. | São Paulo, Brazil |
| 2026 | Society for the Neurobiology of Language (SNL). Cross-modal decoding of syntactic frames from word comprehension to sentence production. | Geneva, Switzerland |
| 2025 | Human Sentence Processing (HSP), University of Maryland. From single words to sentence production: Shared cortical representations but distinct temporal dynamics. 🧠 | College Park, MD |
| | Human Sentence Processing (HSP), University of Maryland. Processing switch reference marking in Nungon (Papua New Guinea): Comprehension and production measures. 🧠 | College Park, MD |
| 2024 | Society for Neuroscience (SfN), Neural Mechanisms of Language Production and Comprehension (Nanosymposium). Low-activity coding of syntax during language production. | Chicago, IL |
| | Intracranial EEG Seminar Series, NYU School of Medicine. The neural dynamics of sentence production: ECoG reveals sentence-specific networks and temporal patterns. | New York, NY |
| 2023 | Society for Neuroscience (SfN), Neural Circuits and Mechanisms of Language and Cognition (Nanosymposium). The neural dynamics of sentence production – ECoG reveals sentence-specific networks and temporal patterns. | Washington DC |
| 2021 | Society for the Neurobiology of Language (SNL). Visualizing lexical activation during speech production. | Virtual |
| 2019 | Chang Lab, Department of Neurosurgery, UC San Francisco. Learning and Representing Syntactic Structure. | San Francisco, CA |
| 2018 | California Meeting on Psycholinguistics (CAMP), UCLA. Subcategorization Preferences of Verbs Reveal Syntactic Processing in Evoked Intracranial Potentials. | Los Angeles, CA |
| | Architectures and Mechanisms for Language Processing (AMLaP), University of Hyderabad, India. This is the Structure that We Wonder Why Anyone Produces it: Resumptive Pronouns in English Hinder Sentence Comprehension. | Hyderabad, India |
| | Pronouns in Competition Workshop, UC Santa Cruz. English resumptive pronouns hinder sentence comprehension. | Santa Cruz, CA |

LINGUISTIC FIELDWORK

Tupari (Tupi), 2012

Preliminary documentation of Tupari in an indigenous reserve. Work with Dr. Denny Moore of Museu Paraense Emílio Goeldi, with grant funding from the Museu Goeldi.

*Rondônia,
Brazil*

Ch'ol (Mayan), 2011

Ran a language processing experiment with speakers of an ergative, VSO language. Work with the Harvard University Polinsky Language Sciences Lab.

*Chiapas,
Mexico*

Q'anjob'al (Mayan), 2011

Ran a language processing experiment with speakers of an ergative, VOS language. Work with the Harvard University Polinsky Language Sciences Lab.

*Santa Eulalia,
Guatemala*
